

H4 / HB2 / 9003 / H19 LED Headlight Bulbs

Upgrade Your Drive with Brighter, Smarter Illumination

By Auxbeam India

Introduction

Clear, bright, and focused headlights are essential for safe nighttime driving. The [H4](#), [HB2](#), [9003](#), and [H19](#) LED headlight bulbs from Auxbeam are designed to provide exceptional brightness, a flawless beam pattern, and enduring dependability. These bulbs guarantee a secure and comfortable ride on any road, whether you drive a car, motorcycle, or SUV.

Key Features

1. Dual-Beam Function (Hi/Lo Beam)

Every H4, HB2, 9003, and H19 LED bulb has a dual-beam system that combines **high and low beams** into one unit. Take advantage of flicker-free, steady light output and instant switching.

2. High Luminous Brightness

These bulbs light up the road up to **300% brighter** than typical halogen bulbs thanks to powerful LED chips that can produce up to **20,000 lumens per pair**. Ideal for better visibility in hazy, wet, or dark environments.

3. Precise Beam Focus

The special socket design guarantees a precise beam pattern that removes glare and dark areas, improving safety for the driver and any approaching cars.

4. Efficient Cooling System

These bulbs, which have an **intelligent turbo fan** and **an aluminum body of aviation grade**, maintain the ideal temperature to avoid overheating and guarantee a lifespan of **up to 50,000 hours**.

5. Plug-and-Play Installation

Direct fitment is intended for the **H4, HB2, 9003, and H19 bulbs**. Just plug it in and it will light up without any wiring, modifications, or additional drivers.

6. IP68 Waterproof & Dustproof

Drive with assurance in any kind of weather. Because the bulbs are **completely sealed**, they provide excellent defense against heat, dust, and rain.

Technical Specifications

Parameter	Description
Model Type	H4 / HB2 / 9003 / H19
Light Source	High-Power LED Chips
Lumen Output	Up to 20,000 LM / Pair
Color Temperature	6000K Cool White

Voltage	DC 12V – 24V
Power Output	60W per pair (approx.)
Cooling Method	Built-in Turbo Fan + Aluminum Body
Beam Type	High/Low Dual Beam
Lifespan	Up to 50,000 Hours
Waterproof Rating	IP68
Installation Type	Plug & Play

Why Choose Auxbeam?

When it comes to automotive lighting technology, [Auxbeam India](#) is a reliable brand that combines safety, durability, and innovation. To provide you with the best nighttime driving experience, every product is tested for quality, performance, and real-road endurance.

Applications

- Cars and SUVs
- Motorcycles and Scooters
- Off-road and Utility Vehicles
- Trucks and Jeeps

Safety & Compatibility

Because our H4 / HB2 / 9003 / H19 LED bulbs are **EMC-tested** and **CANBUS-ready**, they minimize dashboard errors and radio interference. They work with the majority of cars; for more information, see your owner's manual or get advice from Auxbeam India.

Conclusion

Upgrade your car's headlights with **Auxbeam H4 / HB2 / 9003 / H19 LED Bulbs**, which are designed to be bright, focused, and long-lasting.

Discover the distinction of contemporary LED lighting and drive with assurance wherever the road leads.
